

Instructions to Add the model GEM-Care to ISIM

Martin Cicowiez

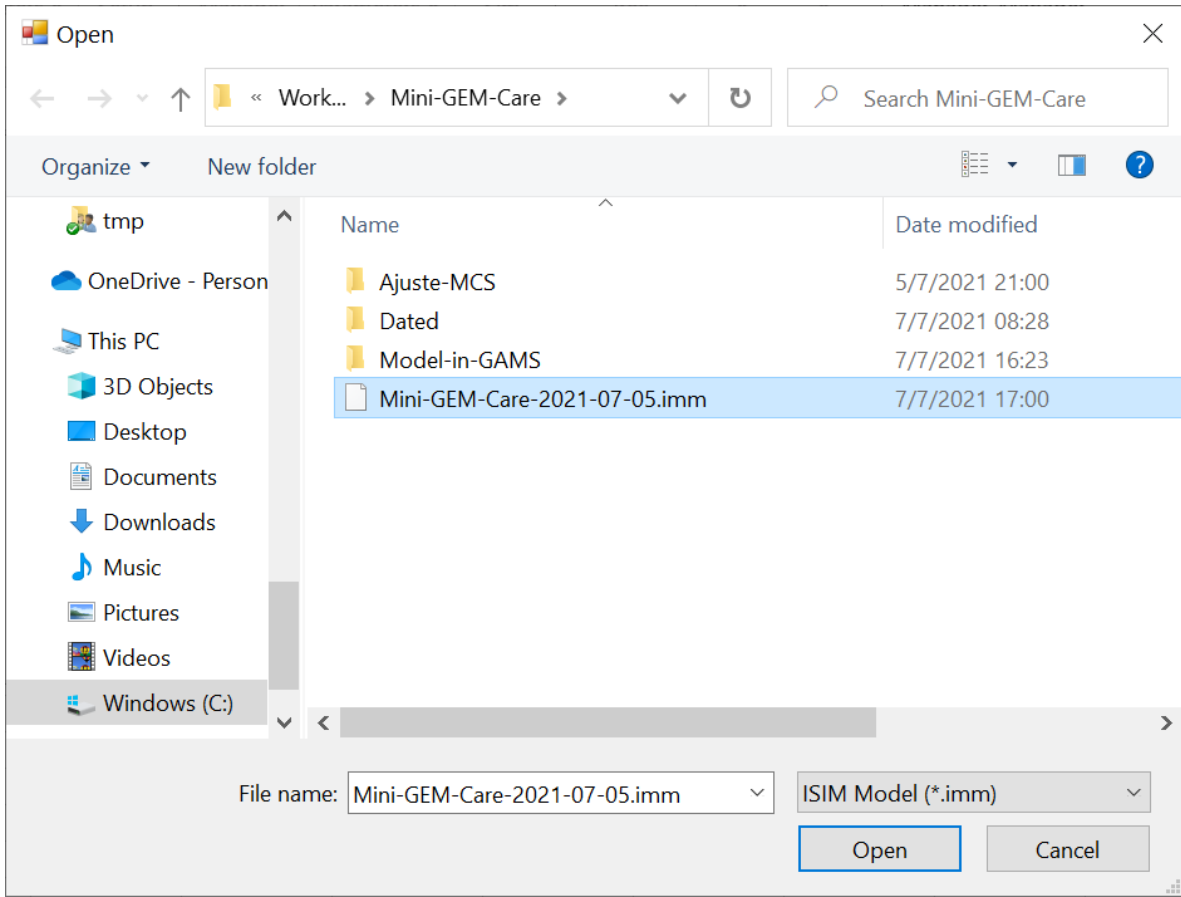

July 3, 2022

Go to **Expert | Model Manager**.

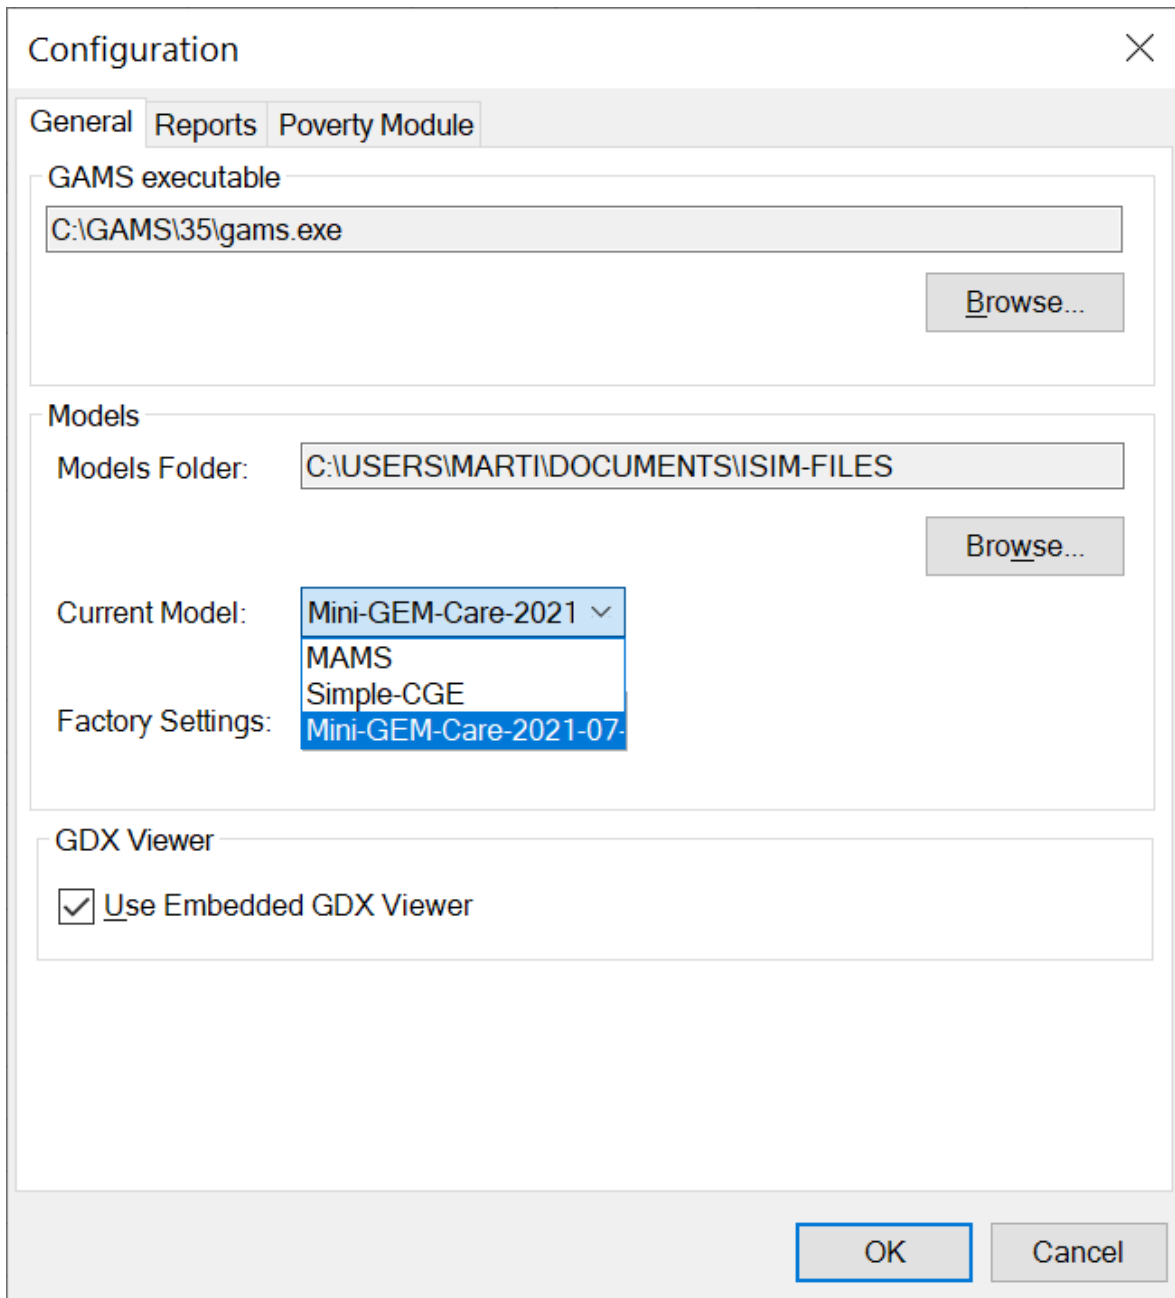

Click **Import**.

Find the file GEM-Care-yy-mm-dd.imm and click Open.

Click **Close**.

Go to **Settings | Configuration**. Under Current Model select Mini-GEM-Care-yyyy-mm-dd.

Click **OK**. Now, you are ready to start creating application Excel files for Mini GEM-Care. To do so, go to New in the ISIM tab.
